The Azure Administrator Job Role

Azure Administrator (Theoretical)

An IT professional who implements, manages, and monitors identity, governance, storage, compute, and virtual networks in a Microsoft Azure cloud environment.

Azure Administrator (Practical)

An IT professional who becomes their company's subject matter expert (SME) on Azure and helps development, Q/A, support, security and DevOps engineers get productive in Azure.

Azure Administrator Salary Expectations

Nigel Frank timw.info/ss1

- \$100,000 USD

ZipRecruiter timw.info/ss2

- \$108,000 USD

Global Knowledge timw.info/ss3

- \$122,000 USD

Neuvoo timw.info/ss4

- \$106,000 USD

"How much of my existing sysadmin skill set can I port to Azure?"

Common and appropriate question

Paradigm shift

A fundamental change in approach or underlying assumptions.

Why a Paradigm Shift is Necessary: SQL Server Database High Availability

Local IT Administration

Obtain budget and buy-in to create a SQL Server failover cluster

Train staff to tend to the HA cluster

Obtain budget and buy-in to replicate the database to another datacenter

Is that enough?!?

Azure Administration

Provision an Azure SQL Database and virtual server in less than five minutes

Geo-replicate the database to other geographic regions and configure failover in less than 20 minutes

Look at the cloud as a “greenfield” opportunity

Demo

1

Demonstrate Azure SQL Database
geo-replication

General Cloud Computing Attributes

NIST Cloud Computing Essential Characteristics

On-demand self-service

- Customers can provision their own resources

Broad network access

- REST APIs accessible in several form factors/application types

Resource pooling

- Dynamically assigned resources in a multi-tenant environment

Rapid elasticity

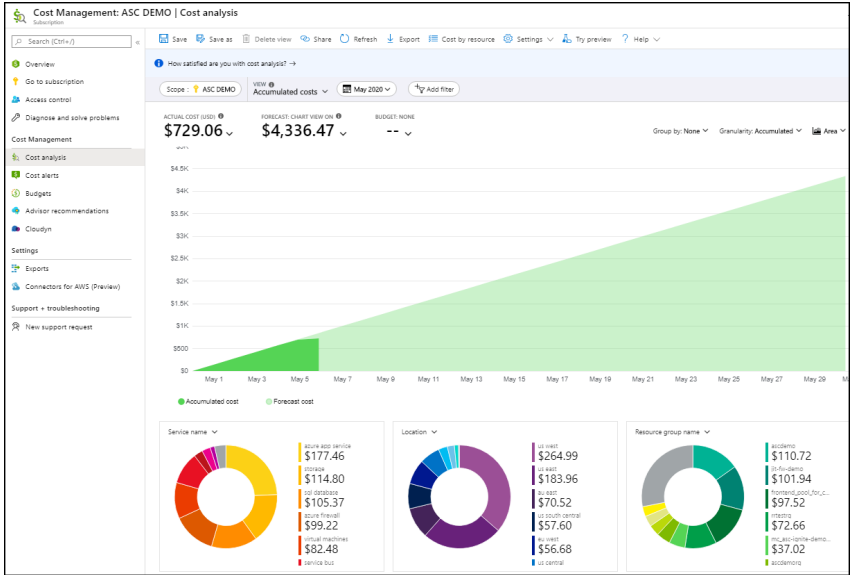

- Automatically scale up and down, in and out

Measured service

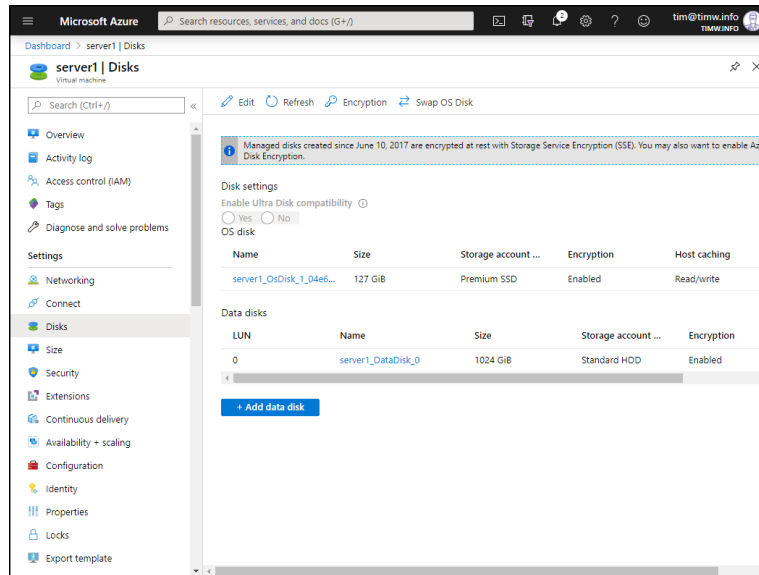

- Pay only for the resources you consume; meters allow you to check consumption

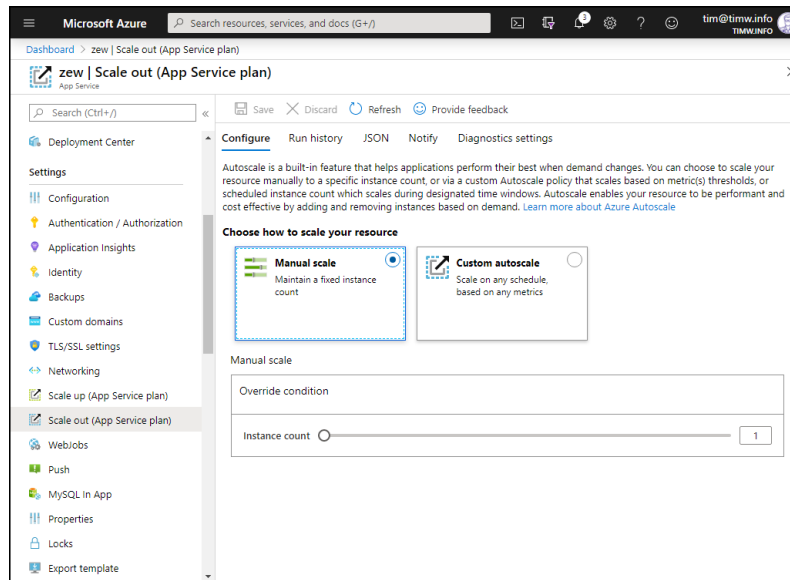

Consumption Model

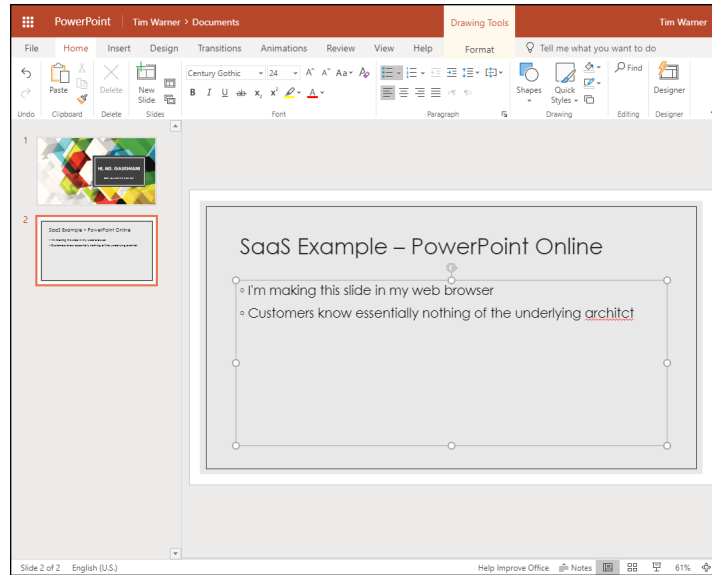

Infrastructure-as-a-Service (IaaS)

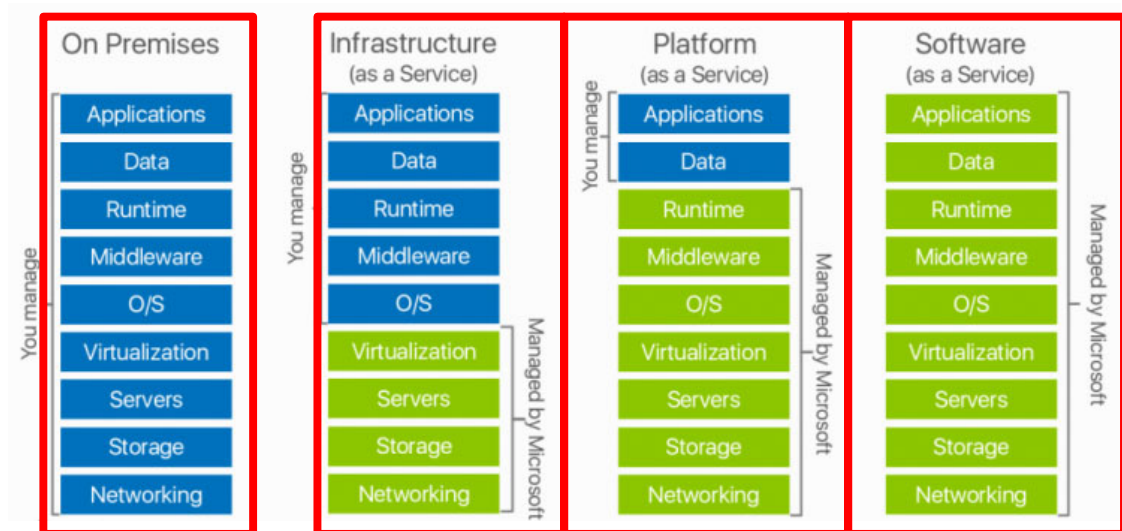

Platform-as-a-Service (PaaS)

Software-as-a-Service (PaaS)

Shared Responsibility Model

Demo

2

Demonstrate Azure VM (IaaS)

Demonstrate OneDrive (SaaS)

Set Yourself Up for Success

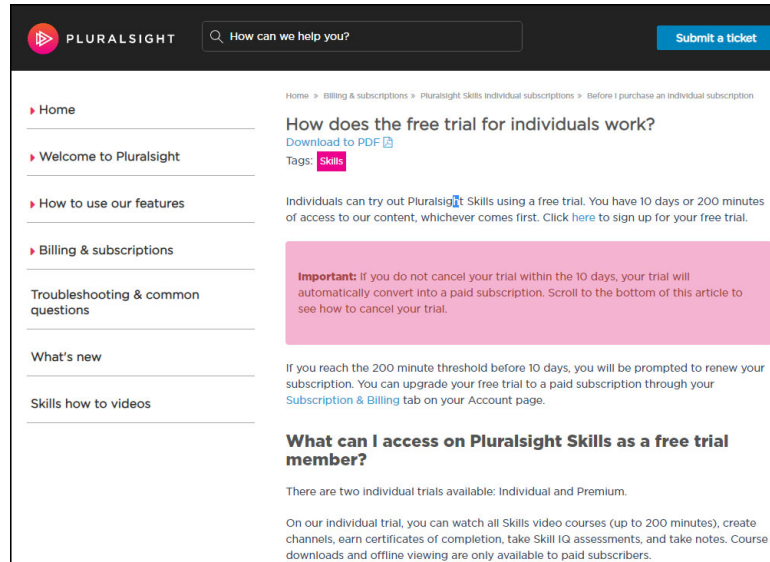

Microsoft Azure Free Account

The screenshot shows the Microsoft Azure portal's 'Free services' page. At the top, the navigation bar includes the Microsoft Azure logo, a search bar, and the user profile 'tim@timw.info'. Below the navigation bar, the page title is 'Free services'. A sub-header reads 'Services free for 12 months with the Azure free account', followed by a brief explanation: 'Services that are included for free with your Azure free account. You can use these services within the limits listed below without getting charged. To learn more, see the [Azure free account FAQ](#).' The main content area displays six service tiles in a 2x3 grid. Each tile includes an icon, the service name, category, free limit, a description, and a 'Create' button. The services are: Windows Virtual Machine (750 hours B1S), Linux Virtual Machine (750 hours B1S), Azure Managed Disks (64 GB x 2), Azure Blob Storage (5 GB LRS hot block), Azure File Storage (5 GB LRS File Storage), and SQL Database (250 GB). Each tile also has a 'Learn more' link. In the bottom left corner of the screenshot, there is an orange button with the text 'timw.info/free'. In the bottom right corner, there is a small circular icon with a play button symbol.

Service	Category	Free Limit	Description	Create
Windows Virtual Machine	COMPUTE	750 hours B1S	Create Windows virtual machines with on-demand capacity in seconds. Learn more	Create
Linux Virtual Machine	COMPUTE	750 hours B1S	Create Linux virtual machines with on-demand capacity in seconds. Learn more	Create
Azure Managed Disks	STORAGE	64 GB x 2	Get premium, secured disk storage for Azure Virtual Machines with simplified management. Learn more	Create
Azure Blob Storage	STORAGE	5 GB LRS hot block	Use massively-scalable object storage for any type of unstructured data. Learn more	Create
Azure File Storage	STORAGE	5 GB LRS File Storage	Migrate to simple, distributed, cross-platform file storage without changing code. Learn more	Create
SQL Database	DATABASES	250 GB	Create an Azure SQL Database that delivers intelligence built-in. Learn more	Create

Pluralsight: Trial Account

The screenshot shows the Pluralsight website's trial account page. The header includes the Pluralsight logo, a search bar with the text "How can we help you?", and a "Submit a ticket" button. The left sidebar contains a navigation menu with links to Home, Welcome to Pluralsight, How to use our features, Billing & subscriptions, Troubleshooting & common questions, What's new, and Skills how to videos. The main content area is titled "How does the free trial for individuals work?" and includes a "Download to PDF" link and a "Skills" tag. The text explains that individuals can try out Pluralsight Skills using a free trial with 10 days or 200 minutes of access. A pink box highlights an important note: "Important: If you do not cancel your trial within the 10 days, your trial will automatically convert into a paid subscription. Scroll to the bottom of this article to see how to cancel your trial." Below this, it states that if the 200-minute threshold is reached before 10 days, users will be prompted to renew. A section titled "What can I access on Pluralsight Skills as a free trial member?" follows, stating there are two individual trials available: Individual and Premium. The bottom of the page features a footer with a play button icon.

How does the free trial for individuals work?

[Download to PDF](#)

Tags: [Skills](#)

Individuals can try out Pluralsight Skills using a free trial. You have 10 days or 200 minutes of access to our content, whichever comes first. Click [here](#) to sign up for your free trial.

Important: If you do not cancel your trial within the 10 days, your trial will automatically convert into a paid subscription. Scroll to the bottom of this article to see how to cancel your trial.

If you reach the 200 minute threshold before 10 days, you will be prompted to renew your subscription. You can upgrade your free trial to a paid subscription through your [Subscription & Billing](#) tab on your Account page.

What can I access on Pluralsight Skills as a free trial member?

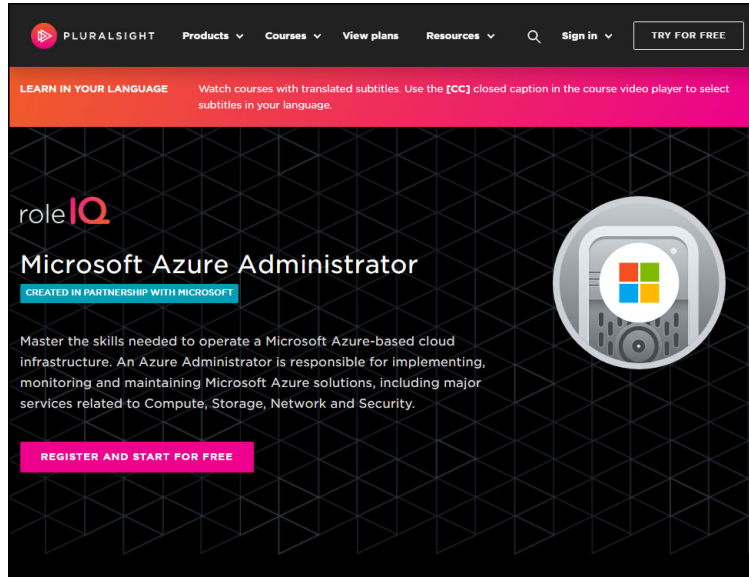

There are two individual trials available: Individual and Premium.

On our individual trial, you can watch all Skills video courses (up to 200 minutes), create channels, earn certificates of completion, take Skill IQ assessments, and take notes. Course downloads and offline viewing are only available to paid subscribers.

Pluralsight: Azure Administrator Learning Path

The screenshot displays the Pluralsight website interface. At the top, a navigation bar includes the Pluralsight logo, links for Products, Courses, View plans, Resources, a search icon, Sign in, and a TRY FOR FREE button. Below this is a pink banner with the text "LEARN IN YOUR LANGUAGE" and a note about translated subtitles. The main content area features the "roleIQ" logo, the title "Microsoft Azure Administrator", and a sub-header "CREATED IN PARTNERSHIP WITH MICROSOFT". A descriptive paragraph follows, explaining the role of an Azure Administrator. A large circular graphic on the right shows a server rack with the Microsoft logo. A pink button at the bottom left of the main content area says "REGISTER AND START FOR FREE".

Microsoft Learn: Azure Administrator Learning Path

The screenshot shows the Microsoft Learn website interface. At the top, there's a navigation bar with 'Microsoft', 'Docs', 'Documentation', 'Learn', and 'Code Samples'. Below this, a 'Learn' section includes links for 'Learning Paths', 'Certifications', and 'FAQ & Help'. A search bar is located on the right. The main heading is 'Browse all', followed by a subtext: 'Learn new skills and discover the power of Microsoft products with step-by-step guidance. Start your journey today by exploring our learning paths and modules.' A 'Filter' section on the left allows users to select roles (Administrator is selected) and levels (Beginner is selected). The main content area displays '325 results found' and shows a grid of learning modules. Each module card includes a title, duration, rating (stars), number of reviews, and progress status. The modules shown are: 'Create an Azure account' (39 min, 4.7 rating), 'Cloud Concepts - Principles of cloud computing' (1 hr 2 min, 4.8 rating), 'Core Cloud Services - Azure architecture and service guarantees' (45 min, 4.7 rating), 'Azure fundamentals' (9 hr 48 min), 'Core Cloud Services - Azure compute options' (38 min, 4.7 rating), and 'Core Cloud Services - Manage services with the Azure portal' (1 hr 13 min, 4.7 rating).
